

HIGH QUALITY FLOORING

The demands made on today's flooring are as diverse as the lifestyles and interior designs they support. While there are as many reasons for the rapidly increasing popularity of laminate flooring as there are styles, the end result is always the same: satisfying even the highest demands for comfort, functionality and beauty.

K418 Longbow Oak, Planked | GT

Nowhere is this more true than in the extensive EURO HOME line of high quality and exclusive laminate flooring. Whether in a plank, strip or tile look, precision aligned or randomly staggered, the inspired matte surfaces of EURO HOME laminate flooring with glistening wood pores are designed to exquisitely exceed all needs and expectations, no matter the style. Incorporating numerous technical advances, EURO HOME flooring is not merely attractive to the eye, but it also beautifully withstands all the pressures of everyday life.

MOISTURE PROTECTION

Swelling-resistant substrates and secure click systems ensure optimum protection against moisture.

1CLIC 2GO PURE

Even in hard to reach places like corners, doors and under radiators, the ingenious "1clíc 2go pure" system makes installing EURO HOME flooring simple and fast. The tongue & groove joint along the length of a panel is slid into position from above and fixed flush with the adjoining panel. The panels are then securely interlocked.

TWIN CLIC

The Twin Clic system has been specifically designed to make the installation of your laminate flooring as easy and hassle-free as possible. With Twin Clic, the tongue and groove profile allows individual panels to be securely and quickly joined together in a snap – with minimal tooling and difficulty.

ANTI-SLIP CLASSES

Safety is something we put great emphasis on. Classification in anti-slip classes (R9 and R10) has been achieved through specially developed surface structures, which address the requirements for floor coverings in the workplace and commercial areas where a high risk of slipping is present.

AUTHENTIC EMBOSSED

The high quality Authentic Embossed structures feature elegant contrasting and a thrilling multi-gloss effect that emphasises the depth of the structure with matt and gloss elements that reflect the light differently. The synchronous pores follow the grain of the decor, meaning they flawlessly mimic the character of natural wood.

HANDSCRAPED EFFECT

A breathtakingly elegant and realistic oiled finish, with gentle irregular undulations, inspired by traditional Amish craftsmanship. The soft matt surface replicates the hardwood area of solid flooring gently polished over time due to footfall. Meanwhile the deep matt pores are highlighted with glossy accents.

MICROSCRATCH PROTECT

This especially durable surface will protect your floors even better against microscratches which can occur through heavy use. With Microscratch Protect, your flooring will be well-protected against fine scratches and everyday wear and tear.

ANTI BACTERIAL COATING

You naturally want to keep your floor as clean and germ-free as possible. We can't see germs, but we all know the problems they can cause if left unchecked. Allergies can be aggravated and illness can result. A.B.C. inhibits the growth of bacteria on your flooring and provides you with the peace-of-mind that comes from a healthy home environment.

ECO FRIENDLY

All floors are environmentally friendly as standard made of 90% wood sourced from sustainably managed forests. What's more, the entire production chain – from raw materials to the finished product – has been certified and is regularly inspected by independent experts, ensuring peace of mind for you – and protection of our environment.

K412 Doubloon Oak, Planked | OE

CLASSIC CHARM IN A NEW DESIGN.

The broad appeal of RESIDENCE turns any home into a stylish retreat of elegance and excellent taste. For those who value the whispers of time as something delightful and precious, the handscraped effect of the planks will evoke treasured emotions. As if masterfully sculpted by hand, the matt brushed surface creates a very special atmosphere for each and every room. For that one-off visual experience, combine RESIDENCE DELUXE and RESIDENCE into a playful yet elegant pattern of narrow and wide planks – a bold marriage of contrasts in a virtuoso floor creation.

ADVANTAGES

- Thickness: 10 mm
- Handscraped effect, Microscratch Protect surface
- Bevelled edges on all four sides of the panel
- Matt surface with Authentic Embossed glossy pores
- 1cllic 2go pure – Clickable short and long edges

ANTI BACTERIAL COATING.

You naturally want to keep your floor as clean and germ-free as possible, especially if you've got little ones or pets running around. We can't see germs, but we all know the problems they can cause if left unchecked. Allergies can be aggravated and illness can result. A.B.C. does not allow for germs to grow. Germs can be present on a floor from many sources such as shoes, spills or animals etc, but EURO HOME A.B.C. Anti Bacterial Coating, works alongside a hygienic cleaning regime, to create peace of mind and a healthy environment.

* Tested germs: Staphylococcus aureus

K039 Silverside Driftwood, Multistrip | GT

Combining the best of nature and design, the LOFT collection leaves most wondering: Genuine or engineered? You really have to look very closely to distinguish any difference. But beyond its sheer beauty, its superior durability makes potential damage from heavy furniture, direct sunlight or cigarette burns a thing of the past. When you choose the LOFT collection, you choose robust and low-maintenance laminate flooring – because your home should be just as carefree as it is beautiful.

SETTING TRENDS.

THE WONDERFUL
LIGHTNESS OF BEING.

A warm atmosphere. An easy-going, laid-back charm. And a wonderful lightness of being that evokes that very special country feeling. Combining modern lifestyle with traditional grace – in an individual, uncompromising way, right down to the planks on the floor. The distinctive V-groove bevel on the long sides of each plank gives an authentic cottage feel, while the blessings of modern age add further dimensions of carefreeness including scratch and stain resistance thanks to our advanced surface, and hassle-free installation with our signature Twin Clic system. All that at excellent value for the money – and all valuable aspects to easily create your own country-style cheerfulness.

ADVANTAGES

- Thickness: 7 mm
- Bevelled edges on all four sides of the panel
- Fast and simple Clic-system installation
- Durable HDF coreboard with added moisture protection
- Hygienic and easy to clean
